TURNING ROLL - U000998 M+F
1000T - Capacity: 1.000.000 kg

Make & Type		1000T
Capacity		1.000.000 kg
Composition		1 drive + 1 idler unit
Rollers	Size (Ø x largh.)	1.050 x 270 mm
	Material	Steel
Distance between centers (min / max)		2.070 ÷ 3.700/4.460 mm
Rollers centers height		1.510 mm
Dimensions	Idler unit	7.800 x 1.160 x (H)2.035 mm
	Drive unit	7.800 x 1.200 x (H)2.035 mm
Drive chain		Double motorgear plus end transmission chain
Roller speed rotation control		By inverter and potentiometer
Controls & electric system	Panel	Input: 380 V
	Button strip	Start – Rotation forward/stop/reverse – Emergency stop – Rotation speed potentiometer
	Foot switch	On request
Idler traversing bogie		Not available
Distance between centers adjustment		By bolts and holes plus adjusting screw
Machine weight		19.800 + 22.400 kg
Construction year		2004 (estimated)
Repairs		Machine fully refurbished with new control box and overall check-up (2015)
Note
