SELF-CENTERING CHUCKS

**mod. ANPW 200, ANPW 300, ANPW 400, ANPW 500, ANPW 600
FOR POSITIONERS**

**SELF-CENTERING CHUCKS WITH 3-CLAWS CLAMPING SYSTEM,
WITH QUICK LOCKING LEVER AND THROUGH HOLE**

The **SELF-CENTERING CHUCKS mod.ANPW for positioners** are a versatile and easy-use tool thanks to the following features:

- The quick locking lever system enables a simple and fast application, without a specific spanner.
- The design of the chuck allows reasonable weight and moderate thickness.
- The chuck fastening is very simple thanks to 3 tapped through hole (120° of angular separation).
- The wide through hole of the **SELF-CENTERING CHUCKS mod.ANPW** make them suitable for pipes work.

Model	d	D	Locking capacity with claws:		approx. weight kg
			position 1	position 2	
ANPW 200	80	200	$\varnothing 110 \div 210$	$\varnothing 20 \div 130$	6
ANPW 300	100	300	$\varnothing 170 \div 280$	$\varnothing 80 \div 190$	12
ANPW 400	170	400	$\varnothing 250 \div 380$	$\varnothing 120 \div 250$	22
ANPW 500	240	500	$\varnothing 360 \div 500$	$\varnothing 200 \div 340$	45
ANPW 600	365	600	$\varnothing 450 \div 600$	$\varnothing 300 \div 450$	80
